

Domestic Travel and/or International Travel - UNVACCINATED

Parents are required to inform Principal Beth Lind at (blind@koraes.org) at least 48 hours in advance of planning to travel by airway, railway, roadway or waterway.

- **In order to be eligible to return to campus, students and parents must complete the following actions:**
 - Get your child tested with a viral test 3-4 days after returning from travel. Your child may not be tested at Koraes. Parents must submit the results to the Koraes office as “attention to Mrs. Despina Lianos”(dlianos@koraes.org).
 - Keep the child home and quarantine him/her for a full 5 days after travel even if he/she tested negative at 3-4 days. During the 5 days, parents must monitor their child for symptoms. If symptoms develop, keep the child home. Parents need to contact the Koraes office at (708) 974-3402.
 - If your child is symptom free and you wish for him/her to return after the 5 day quarantine period, you must grant permission for your child to submit to a rapid antigen test (nasal swab - not nasal cavity) together with a PCR viral test (cheek swab) that will be administered at school upon the child’s arrival.
 - If you *elect not to test* your child after the 5 day quarantine period, he/she must stay home and self-quarantine for 7 days after travel. Parents will need to monitor for symptoms, and if symptoms develop, they must contact the Koraes office at (708) 974-3402.
- **If Your Child’s Test is Positive:**
 - Isolate him/her to protect others from getting infected. A future testing date and conditions for returning to school will be discussed between the child’s parents and Principal Lind.
 - For a child to be eligible to test at Koraes, parents need to enroll on the [registration link](#) at least 24 hours prior to testing.
- **Failure to report travel plans and/or failure to register to test will result in your child(ren) being excluded from school for a period equal to the CDC recommended quarantine time.**
- **Parents who do not report travel plans (airway, railway, roadway, waterway) will be notified that they are in violation of the Parent Code of Conduct, and this negligence will be documented in a letter sent to the parents via email.**

IF YOUR CHILD HAS RECENTLY RECOVERED FROM COVID-19

Your child does not need to get tested or self-quarantine if he/she has recovered from COVID-19 in the past 90 days (documented proof submitted to the Koraes office). If your child develops COVID-19 symptoms during or after travel, isolate the child and consult with a healthcare provider for testing recommendations. You must inform the Koraes office at (708) 974-3402 of your child’s health plan during their absence.

IF YOUR CHILD IS FEELING ILL OR EXHIBITING COVID-19 SYMPTOMS

Never send your child to school for classes or for COVID-19 testing when he/she is feeling ill or exhibiting ANY of the symptoms associated with COVID-19. Keep your child home and consult a healthcare provider to arrange for an evaluation and/or COVID-19 testing. You must inform the Koraes office at (708) 974-3402 of your child’s health plan during their absence.

Domestic Travel and/or International Travel - Vaccinated

Parents are required to inform Principal Beth Lind at (blind@koraes.org) at least 48 hours in advance of planning to travel by airway, railway, roadway or waterway.

Domestic Travel (within the United States or to a U.S. Territory)

- **In order to be eligible to return to campus, students and parents must complete the following actions:**
 - Fully-vaccinated children are not recommended to get a COVID-19 viral test after domestic travel *unless they are symptomatic*.
 - Fully-vaccinated children do not need to self-quarantine following domestic travel *unless they are symptomatic*.
 - Monitor your child during and after travel. If he/she becomes symptomatic, isolate the child and consult with a healthcare provider for evaluation and testing recommendations. Inform the Koraes office at (708) 974-3402 if this occurs.
 - If your fully-vaccinated child is symptomatic after travel, the Koraes office will require a physician note for re entry to school. Parents will need to notify the Koraes office (708-974-3402) of their child's health plan during their absence.

International Travel

- Fully-vaccinated children arriving back into the United States ***that are not symptomatic*** do not need to quarantine. However, Koraes students are required to submit to a COVID-19 PCR viral test 3-5 days after travel and a rapid antigen test upon arrival at school. If the rapid test is negative, the student may attend school while waiting for the results of the PCR viral test.
- If you elect to not have your child tested (rapid and PCR) after travel, your child must self-quarantine for 5 full days.
- For a ***non-symptomatic*** child to be eligible to test at Koraes, parents need to enroll on the [registration link](#) at least 24 hours prior to testing.
- Monitor your child during and after travel. If he/she becomes symptomatic, isolate the child and consult with a healthcare provider for evaluation and testing recommendations. Inform the Koraes office at (708) 974-3402 if this occurs.
- If your fully-vaccinated child is symptomatic after travel, the Koraes office will require a physician note for re entry to school. Parents will need to notify the Koraes office (708-974-3402) of their child's health plan during their absence.
- **Failure to report travel plans and/or failure to register to test will result in your child(ren) being excluded from school for a period equal to the CDC recommended quarantine time.**
- **Parents who do not report travel plans (airway, railway, roadway, waterway) will be notified that they are in violation of the Parent Code of Conduct, and this negligence will be documented in a letter sent to said parents via email.**
